Discussion Forum on the New Zonal System **(Presidential Orders-2025)**

Points of Discussion:-

1. Are new local priorities or geographical limits being created that have nothing to do with the purpose and scope of Article 371-D?
2. What are the scientific, constitutional and legal grounds for creating new districts, zones and multi-zone local cadres?
3. Is this not against the rights guaranteed to citizens under Articles 14, 15, 16 and 19 of the Constitution?
4. Is there any special constitutional basis or justification for treating the reorganised administrative districts as constitutional local areas?
5. Does the new localisation system risk further widening the **Social-Economic Imbalances** among the various regions of the State? What will be its impact on the future employment opportunities of people in backward regions in particular?
6. By limiting the employment opportunities arising in other regions of the State, will localisation create a situation that adversely affects the future prospects of **Unemployed Youth**? How should parity of employment opportunities in the government and private sectors be protected?
7. Is there a danger that reserving jobs in the capital region Amaravati and the economic capital Visakhapatnam for their local residents will increase discontent among unemployed youth in the remaining regions by reducing their opportunities?

8. Has any study been conducted on the impact of this Presidential Order 2025 on the reservations of the classified castes?
9. Will bringing State cadre posts such as Group-1, and posts carrying local reservations, into the local cadre system affect merit and equality of opportunity?
10. What is the legal basis for applying the 2025 Order to employees who have already been appointed and promoted under the 1975 Presidential Order and are in service?
11. Without adversely affecting employees already in service, is a clear distinction needed between these two categories for the restrictions applicable to future recruitments?
12. Is the scope or nature of the existing cadre being altered in a way that operates backwards (**retrospective alteration**)?
13. Is it appropriate to merge and alter service rights already established through recruitment, seniority and promotion into the new recruitment / local cadre system?
14. By applying the new localisation restrictions to employees already in service, are their seniority, promotions and earned service rights being affected?
15. While 75% local reservation in private jobs is already in force under Act 29/2019, what justification is there for providing 95% local reservation in government jobs now? Denying talented and qualified candidates a chance in open competition leads to a brain drain, does it not!

Wake Up – Speak Up – Jago Andhra
